

The Island Disability Coalition Presents:

# Understanding and Applying Universal & Inclusive Design

## Virtual Workshop

**Tuesday, May 25**  
**6-7:30pm**

### **Curious how to expand your organization from ADA compliant to truly inclusive?**

You've probably heard the terms Universal Design and/or Inclusive Design, but may be fuzzy on how these approaches could be used in your organization.

Join Kat King of King Inclusion Consulting as she leads this highly interactive virtual workshop to explore the process, principles, and applications to use in the design of your environment, communications and programs.

Plenty of time has been built in for discussion and networking with participants across Martha's Vineyard. You'll be excited to learn about the innovative projects being developed with the goal of equity and access for all. Electronic resources will be shared, including checklists and toolkits.
